This volume seeks to propose a reinvention of freedom under contemporary conditions of globalization, cross-border mobility, and neo-liberal dominance. There are currently two predominant myths circulating about freedom. The first is that in a global age growing numbers of citizens are less concerned with freedom than they are with security. Secondly, there is the presumption that freedom only refers to market freedom and consumerism, implying that the ideas of choice and consumption are interchangeable with ideas of freedom. Stevenson argues that while these arguments are significant, they are deeply misleading. More 'authentic' ideas of freedom such as self-realisation, participating in politics and seeking a meaningful life of self-

reflection have not been entirely displaced but have instead become reinvented in our global times. The cries of freedom can still be heard in a multitude of places from the Arab Spring to the Occupy Movement and from the protests against European austerity to the current popularity of human rights. Stevenson also argues that the idea of freedom has become increasingly mobile in our interconnected and transnational society. The spaces and places of civil society are more complex in this global age, pushing ideas of freedom far beyond the usual arena of national politics. This volume brings together a diverse range of cultural interpretations in respect of freedom related to the idea of the commons, cosmopolitanism, contemporary documentary cinema and the history of jazz music. Exploring the ways in which notions of freedom are being re-made within the context of the present, and looking more precisely at the

current threats to freedom, it will be of interest to students and scholars of globalization, human rights and cultural sociology. As Christians we claim to have found freedom in Jesus Christ. Yet under the surface most Christians would admit that they still struggle with many negative habits-habitual emotional reactions, destructive thoughts, wrong attitudes, addictive behaviors, and deeply rooted relational patterns. Many suffer with a mounting frustration and a sense of failure, wondering if there is truly power to change in the gospel. The Rugged Road to Freedom heralds the need to address these habits as they occur in the moments of the day, illustrating the transformative power of prayer and the need for a conversational relationship with God. In this book, Christian counselor Joy Brewster describes her great difficulty in trying to make changes in her own personal habits, and also in her efforts, as a professional relationship counselor, to enable her clients

to change. After searching prayer, she began to develop and practice, both personally and professionally, a "Put Off/Put On" process she saw in many passages of Scripture, developing three steps in each part. This process, she realized, was effective only when she encountered God in very personal, relational prayer in each step. Relating her own experiences, those of her clients, and those of her students, she seeks to convince the reader that this prayer process can bring about true change, mounting freedom, and vastly enriched daily fellowship with God. "I write a lot of these, but few with this much enthusiasm. I have had the privilege for almost eight years to walk alongside Joy in life and work alongside her in ministry. She has been a friend and a mentor, and I have both tasted and seen her wisdom. I have witnessed her take hundreds of people through the process described in Rugged Road-and watched, over and over, genuine transformation take place: the blind see, the

deaf hear, and freedom is proclaimed to the captives. I myself have been deeply helped by her. Maybe most convincing of all, Joy's own life is a work of ongoing transformation. She knows that of which she speaks. Now her gift is in your hands." - Mark Buchanan, author of *Your God is Too Safe* and *The Rest of God*

Joy Brewster is Director of Counseling Ministries at New Life Community Baptist Church in Duncan, British Columbia.

Literary Freedom: a Cultural Right to Literature is a non-fiction study of literary freedom from a political-philosophical perspective. It adds an original perspective on the issue of literary freedom as it synthesizes debates from human rights as well as providing a new way of addressing the question 'How do we mitigate against the harm caused by hate speech?' by applying Amartya Sen's capability approach to this question. To be baptized, particularly as an adult, indicating a radical change from the self-directed life to

the life to be lived under the lordship of Jesus Christ, must be one of the most dramatic experiences available to us. To take part in the Lord's Supper--remembering his death for us--must be one of the most moving services in which we could ever participate. But are these ceremonies obligatory for the believer? Did Jesus explicitly or implicitly make them mandatory? Does it not seem somewhat strange that the gospel, by which we are freed from the Law of Moses, demands that we abide by two new ceremonial laws? However greatly they differed from one another, did the reformers go far enough in examining the Scriptures to see what they did indeed say about such ceremonies? Have we written back into our understanding of Scripture that so much underlies our present beliefs and practices? Does an examination of what the early fathers thought help or hinder us in our search for the truth? One of the most important and original thinkers of the twentieth century, Jacques

Ellul (1912-1994) was a noted sociologist, historian, law professor, and self-described "Christian anarchist." At the University of Bordeaux, Ellul taught and wrote extensively on the relationship between technology and contemporary culture, the tenets of the Christian faith, and the principles of human freedom and responsibility. On Freedom, Love, and Power is the transcription of a series of talks given by Ellul in 1974 in which he refines and clarifies some of his most controversial insights on the Jewish and Christian Bibles and their relevance to contemporary society. This expanded edition of Ellul's talks features additional material, previously unavailable, that focuses on Christianity's potential service to humanity as a community that exemplifies a society where people are reconciled with one another and with God. A reissue of Pam Munoz Ryan's bestselling backlist with a distinctive new author treatment. In this fast-paced, courageous, and inspiring

story, readers adventure with Charlotte Parkhurst as she first finds work as a stable hand, becomes a famous stage-coach driver (performing brave feats and outwitting bandits), finds love as a woman but later resumes her identity as a man after the loss of a baby and the tragic death of her husband, and ultimately settles out west on the farm she'd dreamed of having since childhood. It wasn't until after her death that anyone discovered she was a woman. The philosophy of religion, once considered a deviation from an otherwise analytically rigorous discipline, has flourished over the past two decades. This collection of new essays by twelve distinguished philosophers of religion explores three broad themes: religious attitudes of belief, acceptance, and love; human and divine freedom; and the rationality of religious belief. Since it was established in 1967, ALA's Office for Intellectual Freedom (OIF) has championed the rights of library users to seek and receive information on all

subjects from all points of view without restriction and without having the subject of one's interest examined or scrutinized by others. The new edition of the Intellectual Freedom Manual is more than just an invaluable compendium of guiding principles and policies. It's also an indispensable resource for day-to-day guidance on maintaining free and equal access to information for all people. Fortifying and emboldening professionals and students from across the library spectrum, this manual includes 34 ALA policy statements and documents, 17 new or updated for this edition, addressing patron behavior, internet use, copyright, exhibits, use of meeting spaces, and other common concerns. At-a-glance lists summarizing key issues such as access, challenges and censorship, access by minors to controversial materials, and advocacy. Explanations of legal points in clear, easy-to-understand language, alongside case citations. Numerous checklists

to help readers stay organized. A glossary and selected bibliography. This must-have tool will help librarians ensure that institutions of all kinds remain beacons of intellectual freedom. How can we think about identities in the wake of feminist critiques of identity and identity politics? In *Identities and Freedom*, Allison Weir rethinks conceptions of individual and collective identities in relation to freedom. Drawing on Taylor and Foucault, Butler, Zerilli, Mahmood, Mohanty, Young, and others, Weir develops a complex and nuanced account of identities that takes seriously the ways in which identity categories are bound up with power relations, with processes of subjection and exclusion, yet argues that identities are also sources of important values, and of freedom, for they are shaped and sustained by relations of interdependence and solidarity. Moving out of the paradox of identity and freedom requires understanding identities as

effects of multiple contesting relations of power and relations of interdependence. A collection of essays on the foundational themes of freedom and spontaneity in Immanuel Kant's philosophy. The Oxford Handbook on Freedom of Speech provides a critical analysis of the foundations, rationales, and ideas that underpin freedom of speech as a political idea, and as a principle of positive constitutional law. The central question in legal philosophy is the relationship between law and morality. The legal systems of many countries around the world have been influenced by the principles of the Enlightenment: freedom, equality and fraternity. The position is similar in relation to the accompanying state ideal of the democratic constitutional state as well as the notion of a welfare state. The foundation of these principles lies in the ideal of individual autonomy. The law must in this view guarantee a social order which secures the equal freedom of all. This freedom is moreover

fundamental because in modern pluralistic societies a great diversity of views exist concerning the appropriate way of life. This freedom ideal is however also strongly contested. In Law, Order and Freedom, a historical overview is given pertaining to the question of the extent to which the modern Enlightenment values can serve as the universal foundation of law and society. Sexual shame causes women to feel far from God, live a secret life of sexual sin, doubt that God loves them, and even question their salvation. Sexual Shame in Women and How to Experience Freedom will help readers understand sexual shame as one of the root issues among women's sexual struggles, while focusing specifically on the issues of pornography and sexual abuse. Ministry leaders must help women find freedom from sexual shame to help them walk in sexual integrity, wholeness, and healing. The freedom journey begins through understanding the character of God, being known

in biblical community, and understanding God's design for sexuality. This research project is a dissertation from Dallas Theological Seminary's DMin program. "In the intellectual life of a scholar, it is not infrequent for a research question to rattle around in the back of the mind for years. Then all of a sudden comes the realisation that the time is ripe to tackle the topic, and that an attempt has to be made at presenting, discussing and empirically analysed it. I will not go into the reasons why I think that this is now the right moment to address the question on the implementation of the two traditional democratic values, and their transformations over recent years, partly as a consequence of the economic crisis, and its prospective sustainability. Maybe in his Discorsi Machiavelli was only right when he recommends going back to values in times of crisis. There are, of course, other objective and subjective reasons, and the former will emerge directly and indirectly

in the first chapter"--. A fresh argument for a venerable but recently neglected solution to the problem of human freedom and divine sovereignty. If God is the creator of all that is, then God is the creator of everything we do. This basic premise of Christian theology raises difficult questions. How can we have free will if God is the source of all our actions? And how can we explain the existence of evil without ascribing it to God? Freedom and Sin resolves this conundrum through a classical position known as compatibilist indeterminism: the idea that God can determine our free choices while not determining all our choices. This solution, which insists that God's agency is both non-competitive with ours and is not implicated in our sins, has been neglected in recent years but remains the most compelling response to philosophical objections to Christian doctrine. In this volume, Ross McCullough provides a detailed defense and exposition of compatibilist indeterminism, showing how

human freedom is not compromised but perfected by being fixed to the will of God. With a novel re-working of Hans Urs von Balthasar's account of analogy, with an attention to everyday Christian concerns about suffering, and with a consideration of challenging scriptural passages—Jesus's cryptic explanation of parables in Mark 4 and Paul's account of election in Romans 9—McCullough demonstrates a commitment both to formidable theological questions and their concrete applications.

Philosophy and the Modern African American Freedom Struggle: A Freedom Gaze analyzes the ways oppression and marginalization produced the philosophical space necessary for the development of a unique form of Black consciousness within the African Diaspora. This book, the result of 40 years of Hegel research, gives an integral interpretation of G.W.F. Hegel's mature practical philosophy as contained in his textbook, *Grundlinien der*

Philosophie des Rechts, published in 1820, and the courses he gave on the same subject between 1817 and 1830. This book examines the underlying theoretical issues concerning the nature of political freedom. Arguing that most previous discussions of such freedom have been too narrowly focused, it explores both conservatism from Edmund Burke to its present resurgence, the radical tradition of Karl Marx, as well as the orthodox liberal model of freedom of John Locke, John Stuart Mill and Isaiah Berlin. *Political Freedom* argues that these three accounts of political freedom - conservative, liberal and radical - all have internal weaknesses which render them unsatisfactory. In the second part of the book George Brenkert develops an alternative theory of political freedom. Using the guiding concept of empowerment, his model explores individual rights, democratic participation in government and workplace, and the need to provide the

material and educational resources to allow individuals to effectively exercise their rights to self-determination. It is a clear and bold attack on the view that there is no link between freedom and power. We are not human beings that have spiritual experiences. We are truly spiritual beings that are currently having a human experience. In *The Road to Freedom: Letting Go of Your Baggage*, Peter Allman explains that our primary purpose is to create a divine union between our human essence and our spiritual essence and provides the road map for doing so. The ego is the main reason the divine union does not occur. The ego is a way of thinking. It is a mind - a mindset - that is built on the absence of the Divine and creates a false sense of self. The ego mind sees the world in terms of "I want this" or "I don't want this." The three letters of ego could stand for "edging God out." People of all faiths have a prayer that is similar to "Not my will, but Thy will be done." "My will"

equates to the ego. "Thy will" equates to our spiritual nature. It is said we need to live in the world but not be of the world. We need human strengths to live "in the world." Because we have a great capacity to subvert the will of God to our own, we need to access our spiritual nature to be able to "not be of the world." This book addresses the use and regulation of traditional drugs such as peyote, ayahuasca, coca leaf, cannabis, khat and *Salvia divinorum*. The uses of these substances can often be found at the intersection of diverse areas of life, including politics, medicine, shamanism, religion, aesthetics, knowledge transmission, socialization, and celebration. The collection analyzes how some of these psychoactive plants have been progressively incorporated and regulated in developed Western societies by both national legislation and by the United Nations Drug Conventions. It focuses mainly, but not only, on the debates in court cases around the world involving the claim of religious

use and the legal definitions of "religion." It further touches upon issues of human rights and cognitive liberty as they relate to the consumption of drugs. While this collection emphasizes certain uses of psychoactive substances in different cultures and historical periods, it is also useful for thinking about the consumption of drugs in general in contemporary societies. The cultural and informal controls discussed here represent alternatives to the current merely prohibitionist policies, which are linked to the spread of illicit and violent markets. By addressing the disputes involved in the regulation of traditional drug use, this volume reflects on notions such as origin, place, authenticity, and tradition, thereby relating drug policy to broader social science debates. A comprehensive and original analysis of all major WTO provisions relating to the transit of pipeline gas. In *Freedom, Teleology, and Evil* Stewart Goetz defends the

existence of libertarian freedom of the will. He argues that choices are essentially uncaused events with teleological explanations in the form of reasons or purposes. Because choices are uncaused events with teleological explanations, whenever agents choose they are free to choose otherwise. Given this freedom to choose otherwise, agents are morally responsible for how they choose. Thus, Goetz advocates and defends the principle of alternative possibilities which states that agents are morally responsible for a choice only if they are free to choose otherwise. Finally, given that agents have libertarian freedom, Goetz contends that this freedom is integral to the construction of a theodicy which explains why God allows evil. These memoirs from one of the great leaders of our time are 'essential reading for anyone who wants to understand history - and then go out and change it' Barack Obama The riveting memoirs of the outstanding moral and political leader of our time,

Long Walk to Freedom brilliantly re-creates the drama of the experiences that helped shape Nelson Mandela's destiny. Emotive, compelling and uplifting, Long Walk to Freedom is the exhilarating story of an epic life; a story of hardship, resilience and ultimate triumph told with the clarity and eloquence of a born leader. 'Enthralling . . . Mandela emulates the few great political leaders such as Lincoln and Gandhi, who go beyond mere consensus and move out ahead of their followers to break new ground' Sunday Times 'The authentic voice of Mandela shines through this book . . . humane, dignified and magnificently unembittered' The Times 'Burns with the luminosity of faith in the invincible nature of human hope and dignity . . . Unforgettable' Andre Brink How do we evaluate ambiguous concepts such as wellbeing, freedom, and social justice? How do we develop policies that offer everyone the best chance to achieve what they want from life? The capability

approach, a theoretical framework pioneered by the philosopher and economist Amartya Sen in the 1980s, has become an increasingly influential way to think about these issues. Wellbeing, Freedom and Social Justice: The Capability Approach Re-Examined is both an introduction to the capability approach and a thorough evaluation of the challenges and disputes that have engrossed the scholars who have developed it. Ingrid Robeyns offers her own illuminating and rigorously interdisciplinary interpretation, arguing that by appreciating the distinction between the general capability approach and more specific capability theories or applications we can create a powerful and flexible tool for use in a variety of academic disciplines and fields of policymaking. This book provides an original and comprehensive account that will appeal to scholars of the capability approach, new readers looking for an interdisciplinary introduction,

and those interested in theories of justice, human rights, basic needs, and the human development approach. Political philosophers argue vigorously over the relative merits of 'positive' and 'negative' accounts of freedom. Matthew Kramer writes squarely within the negative-liberty tradition, but he incorporates a number of ideas that are quite often associated with theories of positive liberty. The story of the longest and most complex legal challenge to slavery in American history. For over seventy years and five generations, the enslaved families of Prince George's County, Maryland, filed hundreds of suits for their freedom against a powerful circle of slaveholders, taking their cause all the way to the Supreme Court. Between 1787 and 1861, these lawsuits challenged the legitimacy of slavery in American law and put slavery on trial in the nation's capital. Piecing together evidence once dismissed in court and buried

in the archives, William Thomas tells an intricate and intensely human story of the enslaved families (the Butlers, Queens, Mahoneys, and others), their lawyers (among them a young Francis Scott Key), and the slaveholders who fought to defend slavery, beginning with the Jesuit priests who held some of the largest plantations in the nation and founded a college at Georgetown. A Question of Freedom asks us to reckon with the moral problem of slavery and its legacies in the present day. This book deals with the central theme of freedom to practise midwifery in selected countries of the world. Each chapter has a separate author who has specific knowledge of the country for that chapter either as a citizen or researcher. The underpinning theme of this book is the philosophy of best midwifery practice - particularly that which is evidence-based. To clarify the meaning of the term, the book includes an initial chapter that discusses the aims and realities

of achieving 'best practice' - wherever in the world a midwife may be and under whatever circumstances she may be working. A must have book for anyone who wants to have victory over debt. Written by an ordinary person - for ordinary working people. This ordinary person paid his house off before age 30 while working as a manufacturing operator. Today, he teaches others how to live without debt. This book represents the first comprehensive anthology of papers designed to explore both the state of scientific progress and the ethics, law and history of scientific research. It will appeal to a very wide international audience, offering a truly multidisciplinary analysis of many facets of scientific research. An appraisal of liberation theology from the Anabaptist-Mennonite perspective, Freedom and Discipleship brings together essays by prominent theologians of that tradition and responses by Protestant liberation theologians.

Emerging from differing ethnic, socio-cultural, and denominational backgrounds, the contributors seek to promote an inter-Christian dialogue. This dialogue, in turn, locates foundations for both building and equipping the ecclesial community for mission, especially the witness of peace and justice. It spurs modern descendants of both traditions to reflect on their own radical roots, while simultaneously raising critical questions on such topics as violence and nonviolence. Freedom and Discipleship offers a unique assessment of liberation theology from the perspective of the "Radical Reformation"—that stream of Protestantism which has understood the discipleship of Jesus to imply commitments to peace and to justice. The contributors address the myriad dimensions of liberation theology—including hermeneutical, ecclesiological, christological, ethical, and eschatological concerns. In Part I, "Perspectives on Liberation Theology," essays

evaluate liberation theology at various points and in different ways. Part II, "Dialogical Interface and Implications," reflects the ongoing conversation in a dialectical and dynamic fashion. In bringing together liberation theology and the Anabaptist perspective, Freedom and Discipleship makes a significant contribution to the engagement of two Christian traditions. Dana Kay Nelkin presents a simple and natural account of freedom and moral responsibility which responds to the great variety of challenges to the idea that we are free and responsible, before ultimately reaffirming our conception of ourselves as agents. Making Sense of Freedom and Responsibility begins with a defense of the rational abilities view, according to which one is responsible for an action if and only if one acts with the ability to recognize and act for good reasons. The view is compatibilist—that is, on the view defended, responsibility is compatible with

determinism—and one of its striking features is a certain asymmetry: it requires the ability to do otherwise for responsibility when actions are blameworthy, but not when they are praiseworthy. In defending and elaborating the view, Nelkin questions long-held assumptions such as those concerning the relation between fairness and blame and the nature of so-called reactive attitudes such as resentment and forgiveness. Her argument not only fits with a metaphysical picture of causation—agent-causation—often assumed to be available only to incompatibilist accounts, but receives positive support from the intuitively appealing Ought Implies Can Principle, and establishes a new interpretation of freedom and moral responsibility that dovetails with a compelling account of our inescapable commitments as rational agents. Religion has become a charged token in a politics of division. In disputes about faith-based social services, public money for religious

schools, the Pledge of Allegiance, Ten Commandments monuments, the theory of evolution, and many other topics, angry contestation threatens to displace America's historic commitment to religious freedom. Part of the problem, the authors argue, is that constitutional analysis of religious freedom has been hobbled by the idea of "a wall of separation" between church and state. That metaphor has been understood to demand that religion be treated far better than other concerns in some contexts, and far worse in others. Sometimes it seems to insist on both contrary forms of treatment simultaneously. Missing has been concern for the fair and equal treatment of religion. In response, the authors offer an understanding of religious freedom called Equal Liberty. Equal Liberty is guided by two principles. First, no one within the reach of the Constitution ought to be devalued on account of the spiritual foundation of their commitments. Second, all

persons should enjoy broad rights of free speech, personal autonomy, associative freedom, and private property. Together, these principles are generous and fair to a wide range of religious beliefs and practices. With Equal Liberty as their guide, the authors offer practical, moderate, and appealing terms for the settlement of many hot-button issues that have plunged religious freedom into controversy. Their book calls Americans back to the project of finding fair terms of cooperation for a religiously diverse people, and it offers a valuable set of tools for working toward that end. Freedom is the key issue for both Karol Wojtyla and Immanuel Kant that connects the Polish with the German philosopher. This analysis aims to show the importance of Kant's ethics in the work of Karol Wojtyla. Kant's paradigm shift in the anthropological thought was revolutionary. The categorical imperative obliges each person to act morally and thus elevates them. It is the foundation of human dignity, not only for Kant but also for Wojtyla. Who is man? Is man free? Or is materialistic man determined and arrested in immanence? What should man do? Man is gifted with freedom. He is a person

because he has the capacity to act. Wojtyla and Kant put special emphasis on a person's power of selfdetermination that reveals itself through the experience as a freely acting person. The realisation of the personal norm - the categorical imperative - was defined by both thinkers as a fulfilment of freedom. Freedom shall be fulfilled in the responsible act, which reveals the person's power of love. A member of the Energy Therapies family - which includes, acupuncture, acupressure and shiatsu - Emotional Freedom Technique is a simple and increasingly popular self- development therapy used to treat a wide range of physical and emotional issues. Popularised by figures including Paul McKenna, EFT is based on the theory that negative emotions are caused by disturbances in the body's energy. Often referred to as acupuncture without needles, EFT involves locating and tapping on meridian points in the body while thinking of a negative emotion and using positive

suggestion and thoughts to alter the body's energy flow, restore balance and reprogram thought processes. This nonsense guide introduces readers to the theories and methods behind the technique and shows them how to use it to reduce the physical and emotional impact of a wide range of issues including, depression, fears, phobias, anger, addictions, sleeplessness and pain. Neoplatonists have a perfectionist view of freedom: an entity is free to the extent that it succeeds in making itself good. Free entities are wholly in control of themselves—they are self-determining, self-constituting, and self-knowing. Neoplatonist philosophers argue that such freedom is only possible for non-bodily things. The human soul is free insofar as it rises above bodily things and engages in intellection, but when it turns its desires to bodily things, it is drawn under the sway of fate and becomes enslaved. Ursula Coope discusses this notion of freedom and its relation to questions about responsibility. She explains the important role of notions of self-reflexivity in Neoplatonist accounts of both freedom and responsibility. In Part I, Coope sets out the puzzles Neoplatonist philosophers face about freedom and responsibility and explains how these puzzles arise from earlier discussions. Part II explores the metaphysical underpinnings of the Neoplatonist notion of

freedom (concentrating especially on the views of Plotinus and Proclus). In what sense, if any, is the ultimate first principle of everything (the One) free? If everything else is under this ultimate first principle, how can anything other than the One be free? What is the connection between freedom and nonbodiliness? Finally, Coope considers in Part III questions about responsibility, arising from this perfectionist view of freedom. Why are human beings responsible for their behaviour, in a way that other animals are not? If we are enslaved when we act viciously, how can we be to blame for our vicious actions and choices?
