LogoLounge Master Library series, Shapes &
Symbols is a collection of 3,000 shape-
and symbol-based designs gathered from
LogoLounge.com, the largest online
collection of logos in the world. In
addition, top designers, including Steff
Geissbuhler, Jerry Kuyper, and Hans
Hulsbosch, share their insights on the
values, traditions, and future of shape-
and symbol-based logo designs. "Shapes
are generally logos that are more concept-
oriented. It is a category that is rich
with history, culture, and present-day*

opportunity. "Symbols are logos that are based on pictorial representations of concept: a heart, a star, or a cross, to name a few. In large part, their meaning is drawn from the specific base symbol. The LogoLounge Master Library series forms the deepest, densest, most highly focused collection of logos organized by category ever. It is organized with the busy, motivated designer in mind. You can turn to exactly what you need, time after time" a must-have resource for any serious logo designer.

The Languages of Nation Aug 29 2020 This collection brings together research on linguistic prescriptivism and social identities, in specific contemporary and historical contexts of cross-cultural contact and awareness. Providing multilingual and multidisciplinary perspectives from language studies, lexicography, literature, and cultural studies, our contributors relate language norms to frameworks of identity beyond monolingual citizenship - nativeness, ethnicity, politics, religion, empire. Some chapters focus on traditional

instruments of prescriptivism: language academies in Europe; government language planners in southeast Asia; dictionaries and grammars from Early Modern and imperial Britain, republican America, the postcolonial Caribbean, and modern Germany. Other chapters consider the roles of scholars in prescriptivism, as well as the more informal and populist mechanisms of enforcement expressed in newspapers. With a thematic introduction articulating links between its breadth of perspectives, this accessible book should engage everyone concerned with language norms.
