*protocol bgp arista* Jun 17 2019  
web bgp is a protocol that  
exchanges routing information  
among neighboring routers in  
different autonomous systems  
through tcp sessions bgp  
neighbors peers communicate  
through a tcp session on port  
179 they are established by  
manual configuration  
commands static peers or by  
creating a peer group listen  
range and accepting incoming  
peering requests
