*My Companion* Jan 22 2020 This e-book was created to help English Language students gain confidence in breezing through English speaking exams. The topic cards are based on 11 common topics encountered in IGCSE English as a Second Language speaking exams. This mini-book may also be used as a guide for school or for those pursuing English Language courses worldwide. Author Preface (within e-book) Dear friend Thank you for buying 'My Companion' speaking guide for IGCSE exams. You've made a wise decision! Many students attempting speaking exams usually get tongue-tied and are in a state of delirium! Many have 'butterflies in their tummies'! So this was written to help alleviate such ills. Remember the speaking cards are not to be considered as a

written script! Use them as a companion guide and try to create a smooth flow of the language talking about your own picture stories from any album in your own minds... Generally speaking, a multiple reading of all the cards will ensure better practice of sentence structures and expressions that aim in building a natural flair for the language. Learn to blend your thought sequences into word components on your lips. You don't have to impress the invigilator or examiner! A proper and engaging context is what is expected of students to portray during the 'conversation'. There aren't any right or wrong answers either! A little digression from the topic may be allowed but remember to put yourself back on track every time that happens. 'Comprehension' of the topic card at hand plays a key factor in conveying fair acceptable answers. The best part is seeing yourself breeze through the speaking exams. It's all about using the charm of positive thinking! You CAN do this! And with that said...let me personally wish you, BEST OF LUCK and God bless... Have pleasant days ahead... Kind regards Ms. Kesh Genga English Language Instructor/ Writer

**SYSTEMATIC INSTRUCTION IN READING FOR SPANISH-SPEAKING STUDENTS** Jun 07 2021 Students whose first language is not English are the fastest-growing group in public schools in all regions of the United States. Almost 10 million children between the ages of five and 17 live in the homes and communities in which a language other than English is spoken and presently most schools in the U.S. are under-educating many English learners. The achievement of Hispanic students needs to improve dramatically over the next five years and this book describes the cornerstone elements for bringing about this change. The initial chapter introduces direct instruction to be used with reading and literacy programs. Chapters 2 and 3 provide excellent review of the literature in language development and address developing language instruction, listening, and speaking with Spanish-speaking students and offers what a comprehensive language development program should look like. Chapter 4 reviews academic language and literacy instruction while the next addresses the components of instruction in Spanish. Chapter 6 offers lesson plan suggestions for Spanish-speaking students, while the following two sections discuss components that transfer and do not transfer in Spanish to English reading instruction. Chapter 9 reviews English language development and provides lesson plans for implementing SDAIE programs. Finally, Chapter 10 discusses two-way bilingual immersion and shares actual classroom schedules and lessons. This unique text will help in the preparation of primary grade teachers throughout the U.S. so that they may be successful with Hispanic students entering the public schools with little or no English background. It will also be a useful tool for school districts' staff

development in addressing school improvement goals for increasing the achievement of Hispanic students.
