"The Jewel of Annual Astrology is an encyclopaedic treatise on Tājika or Sanskritized Perso-Arabic astrology, dealing particularly with the casting and interpretation of anniversary horoscopes. Authored in 1649 CE by Balabhadra Daivajña, court astrologer to Shāh Shujā' - governor of Bengal and second son of the Mughal emperor Shāh Jahān - it casts light on the historical development of the Tājika school by extensive quotations from earlier works spanning five centuries. With this first-ever scholarly edition and translation of a Tājika text, Martin Gansten makes a significant contribution not only to the study of an important but little known knowledge tradition, but also to the intellectual historiography of Asia and the transmission of horoscopic astrology in the medieval and early modern periods"--

In the last few decades, yoga has helped millions of people to improve their concepts of themselves. Yoga realises that man is not only the mind, he is body as well. Yoga has been designed in a such a way that it can complete the process of evolution of the personality in every possible direction. Kundalini yoga is a part of the tantric tradition. Even though you may have already been introduced to yoga, it is necessary to know something about tantra also. Since the dawn of creation, the tantrics and yogis have realised that in this physical body there is a potential force. It is not psychological or transcendental; it is a dynamic potential force in the material body, and it is called Kundalini. This Kundalini is the greatest discovery of tantra and yoga. Scientists have begun to look into this, and a summary of the latest scientific experiments is included in this book. This book deals with the fundamentals of Horoscope matching. Today "Horoscope matching" has become the indispensable part of Hindu marriage. But it has not been mentioned in any old Jataka scripture of Astrology. However, it has been described in the Muhurta scriptures of the same. In

Ramayan, marriage of Rama, Bharata, Lakshmana and Shatrughna has been described elaborately. But, in this great epic also Horoscope matching has not been mentioned. Likewise, in Mahabharata, too, it has not been cited. Therefore, it can be said that Horoscope matching in Astrology was not in practice a few centuries ago. But, the community accepted and made it an indispensable part keeping its usefulness in view. Different systems of Horoscope matching are in practice in different parts of India. In North India, Ashtakuta matching is in practice whereas in South Dasakuta matching is in fashion. But Ashtakuta matching is in vogue in most part of India. This is why the All India Federation of Astrologers' Societies has accepted and prescribed this system of Ashtakuta matching for the courses of its students. The book has been written keeping in view the courses introduced by the All India Federation of Astrologers' Societies, Delhi. The students are advised to study "Kundali Milana-Sukhi Dampatya Jeevana Ka Adhar" because prediction of a happy married life cannot be made by Ashtakuta matching only. This shows only the amity, love and mutual understanding between the two. But to determine the age, health and ups and downs in life of the couple some other aspects such as Period-sub-period, Dosha Samya etc. are also essential to be analyzed. An analysis of long conjugal life is essential for its stability. So, apart from Ashtakuta matching, we should keep in view other aspects also. To know all this, "Kundali Milan – Sukhi Dampatya Jeevana Ka Adhara" is prescribed. From its earliest days, Buddhism has been closely intertwined with medicine. *Buddhism and Medicine* is a singular collection showcasing the generative relationship and mutual influence between these fields across premodern Asia. The anthology combines dozens of English-language translations of premodern Buddhist texts with contextualizing introductions by leading international scholars in Buddhist studies, the history of medicine, and a range of other fields. These sources explore in detail medical topics ranging from the development of fetal anatomy in the womb to nursing, hospice, dietary regimen, magical powers, visualization, and other healing knowledge. Works translated here include meditation guides, popular narratives, ritual manuals, spells texts, monastic disciplinary codes, recipe inscriptions, philosophical treatises, poetry, works by physicians, and other genres. All together, these selections and their introductions provide a comprehensive overview of Buddhist healing throughout Asia. They also demonstrate the central place of healing in Buddhist practice and in the daily life of the premodern world.

Parashari Jaimini and Tajik are the three most popular systems of Vedic Astrology. Parashar gives more importance to the planets while Jaimini considers the rashis to be more important. Tajik is

mainly used in Prashna Shastra and in Varshaphal. Tajik diverts slightly always from the main stream of the traditional methods and employs newer techniques of Astrology. 'Tajik Neelakanthi', of Acharya Neelakantha, which was composed in the 16th century AD, is the base of Tajik Jyotish. This does not mean that Varshaphal and Prashna techniques were not practised in vedic Astrology before this. 'Uttar Kalamrit' of Kalidas mentions and describes the computation of Varshaphal dasha which is different from the 'Mudda dasha' of Varshaphal. Apart from this, 'Shat Panchashikha' of Prithyushyas is the established classic of Prashna Shastra, which was composed centuries before 'Tajik Neelakanthi'. Ancient Kairaleeya Jyotish is also well known for considering Prashna to be their main technique. The influence of Greek and Arab culture is clearly seen on the word 'Tajik'. Arrival of the invaders from Western Asia initiated the exchange of culture between India and West Asia. This exchange introduced some newer techniques to our Vedic Astrology. One of these techniques was Tajik. This has been marked as the beginning of Tajik jyotish. Tajik word does not belong to Sanskrit. There are different opinions regarding this issue. Some scholars consider it to be a distorted form of the word 'Jatak'. Another view is that meaning of Tajik is a horse in Turkish and Persian language. The speed of this technique has been compared to that of a horse and for this reason it has been named Tajik. In any case the influence of Mohammedans on this knowledge is very clear. This is also confirmed by the other words of Tajik, namely mudda, muntha, saham and the names of the Tajik yogas like Ithasal, Ikkabal, Ishraf, nakta, radda and khallasar etc. Moving at the average speed of 1° per day, Sun completes one round of the Zodiac in one year.

For casting the annual horoscope we select the time when Sun reaches the longitude of the natal Sun. The horoscope cast for that date and time becomes the annual horoscope and the Varshaphal is decided on the basis of this horoscope. In a similar manner prediction for any year of the person's life can be given on the basis of the annual horoscope. In other words the annual horoscope is based on the longitude of the natal Sun and not on the date and time of birth. This also means that the date, day and time of the annual horoscope is generally different from that of the birth horoscope. In this book David Anrias shows what each sign looks like when rising. He goes further and, dividing each sign into 10 degree sections (known as "decanates"), shows how appearance changes, from early degrees, to middle degrees, to late degrees of the same sign. All 36 drawings are by the author himself, who was an accomplished artist and a keen observer. Twelve of these you will find in the frontispiece, the remaining 24 are in Book 1, chapter 7. While other artists have sketched the twelve basic types, and one or two have given variations on some of them, Anrias is the only astrological artist/writer to make systematic sketches of all 36 variations. Anrias follows this with deft character sketches. If a given decanate (the third decanate of Libra, for example) produces a distinct face, it also produces a distinct personality. Of this book, Dr. H., of Regulus Astrology LLC (author of A Rectification Manual; America is Born) writes, "I find Anrias' use of the decans based on triplicities more accurate than Chaldean decans for application in physiognomy judgments." DAVID ANRIAS, the pen-name of Brian Ross, served with the British forces in World

War I. A natural sensitive, after the war he joined the Theosophical Society, studied in India, and was associated with Jiddu Krishnamurti's ill-fated Order of the Star in the East. He strenuously disagreed with Krishnamurti's decision to dissolve it. Anriasis's intense study of theosophy and metaphysics enlivens his astrology, making his book most fascinating reading. The author of the successful Feng Shui Step by Step returns with a new book that features personalized astrological charts to offer individualized guidance in using traditional feng shui techniques for business success. 80 line drawings. One of the responsibilities of every dog or cat owner is that of coat care. The Lal Kitab, a rare book in urdu, was popular in north-west India, Pakistan, Iran and many other countries. This English version has added new dimensions to make it more lucid and easier to understand. A most reliable guide to practical astrology, Notable Horoscopes does not contain startling predictions and amazing forecasts. Second to 'PARASHAR; JAIMINI' is the greatest giant of Vedic Astrology. Parashar laid down the great principle of Vedic Astrology, while Jaimini went a step further and refined them. "JAIMINI UPDESH SUTRAS" were composed by Maharishi Jaimini. "SUTRAS" are very short sanskrit Stanzas with very vast and profound meaning. They are like a ball of thread. The more they are opened out, the more meaning they reveal, and they are so brief that they can even be memorised. Who was Jaimini Maharishi? No one knows for sure! Some learned men think that he was a disciple of the famous Maharishi Ved Vyas, who was Parashar's Son. They also feel that he is the famous author of 'Poorva Mimansa' and 'Jaimini Bharat'. Others feel that he is a later author who was very familiar with mantras. Whoever he was! His genius is reflected in the sutras he composed. These sutras are probably five thousand years old. They have stood the test of time and time has turned them into beautiful Gems of prediction. The centuries have proved their authenticity and soundness. These sutras are 936 in number, spread over four Adhyayas. The Greatest principle of Jaimini

System is that the Study of Lagna is not enough. Apart from, studying the horoscope from the regular Lagna, Moon and Sun; one must study it in the light of karakamsa Lagna, Arudha, Up-pada, Hora lagna and the different karakas. In this way the personality of the Jatak is split up into its fundamentals and studied. Next is the karakatvas of the planets and houses. Parashar allotted permanent karakatvas to planets and houses. He also gave conditional karakatvas to the planets according to their lordship over different houses. Jaimini made prediction simpler, sharper and quicker by establishing limits of these karakatvas through the different char karakas. Another striking feature Jaimini is the Jaimini Drishti or Aspects. Every student of Astrology knows that both planets and Rashis affect us and yet we consider the aspects of only the planets! What about the Rashis ? This factor was taken into account by Jaimini. He established that the rashis also aspected each other and the planets placed in them also cast their Aspects along with their respective rashis. These aspects are quite different from Parashari aspects. Apart from these main features Jaimini has its own Yogas, Argalas and dashas. The most popular dasha for General use is Char dasha. Some of the other dashas as are Sthir dasha, Mandook dasha, Trikona dasha, Nirayan shoola dasha, Brahma dasha, Varnada dasha and Yogardha dasha. Some of them are conditional dashas while the others are used for a specific purpose. We shall be confining ourselves to Char dasha only in this book. On the face of it, it may appear that Jaimini contradicts Parashar. This is a misconception. If studied in-depth, it becomes clear that Jaimini is only a refinement of Parashari principles. Traditional Astrologers mostly use Jaimini for 'Ayurdaya' or assessment of longevity. The time is ripe for us to

make an effort to revive this great system, so that it can be used for the entire reading of the horoscope and for bringing fineness or sookshmata in prediction. The main purpose behind introducing Jaimini Astrology is to encourage the use of composite techniques of prediction. These have been adopted superbly by shri Mahadeva pathak in his Jatak Tatva. He has used Jaimini principles alongside the Parashari principles to produce very good composite Techniques. In the end I would like to point out that most of the Astrological classics stress more on Negativity. As modern Astrologers we need to conduct researches to bring out the positive aspects of these principles and to modify and update them. Hired by Venice's ruling Council of Ten to uncover a foreign spy, seer Maestro Nostradamus soon discovers that the spy can only be caught by occult means and must turn to Alfeo Zeno, a swordsman in possession of some unique talents, to solve the mystery.
